The end of 2008 and a positive step for 2009

As the credit crunch grows into a global recession, we remain confident that Stahl will continue to excel as we move forward into 2009. Whilst demand may be dropping elsewhere for oil related products, demand for our products remains high. As always, our strategy of excellent customer service and providing clients with a dedicated, competitive company keeps us aiming high and achieving our goals.

Recent discussions with major end users in Aberdeen and their support contractors was far from gloomy; a positive response from Europe's energy capital. As the global situation gets tougher the companies that focus on customer service with competitive solutions will perform well. Stahl will be one of those companies. Take a positive step and look at www.rstahl.co.uk to browse through what we can offer to you! Can we take the chance to thank you for your continued support as we enter 2009 and wish you all a fantastic Christmas and New Year.

Elmess & R. Stahl Ltd: Leaders in the design and manufacture of electrical equipment for 'EX' areas, combined with the specialists for electrical heating systems.

Stahl at HazardEX preview

R. Stahl Ltd will be exhibiting at HazardEx, at the Majestic hotel, Harrogate, North Yorkshire, on the 25-26th February 2009.

If you would be interested in finding out more about our vast range of products, you can visit us at stand 14, where our staff will be happy to help. Remember, we provide the ideal all-round solution for protection in the hazardous area, therefore we are guaranteed to have a solution for your needs.

We will be more than happy to assist you with your choices and provide advice on other areas of "Ex" protection if this is required. It will be a fantastic chance to meet our team and get the answers to any of your questions. We're looking forward to seeing you there!
